

Mirkwood Designs

Center-Tie Card Template

(Makes a 5 x 5-inch card)

1. Print onto card stock and cut out (or print a paper template and trace onto card stock).
2. Decorate the outside (and inside, if desired) with stamps, paint, or whatever you like.
3. Punch holes as indicated. (Use a decorative punch, such as a heart, if desired).
4. Score and fold on dotted lines, making sure folded sections meet exactly in the center.
5. Tie closed with a pretty matching ribbon.

Optional: If you want, you can make a 4.5-inch square or circle layer of card stock for the inside, printing desired text on your printer and adhering to the card.

Note: Remember that the USPS charges extra to mail square cards!
